EDUCATION

HOLY ANGEL UNIVERSITY

Angeles City, Pampanga

BSIT with a Specialization in Web Development

2025

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object-oriented Programming, Database Systems, Web Development, Web Design

EXPERIENCE

FlyRank AI - Internship

Remote

Front-end AI Engineer

July 2026 – Present

- I did AI integration in frontend projects related to our assignments.
- Weekly I document and develop the assigned tasks e.g. AI Fluency, Front-end AI Engineering, Capstone, and completion of the requirements.

Web Development Lead – Google Developers Group on Campus (HAU)

Angeles City, Pampanga

Web Developer

May 2026 – Present

- Lead web development initiatives, mentoring team members, and collaborating on projects that promote technology, innovation, and skill development within the student developer community.
- Lead and create websites assigned by the CEO and CTO alongside other developers.
- Developed responsive front-end features in React and Tailwind CSS

AI / ML Engineer Staff – Google Developers Group on Campus (HAU)

Angeles City, Pampanga

Artificial Intelligence /Machine Learning

Sept 2025 – March 2026

- Collaborated with team leads in planning and executing workshops focused on artificial intelligence and machine learning. Supported event organization, technical preparation, and knowledge-sharing initiatives to help students explore emerging technologies.

DEVCON Pampanga – Full time

Angeles City, Pampanga

DEVCON Kids Specialist

March 2026 - Present

- Core Member of DEVCON Pampanga and actively involved in DEVCON Kids tier specialist. I contribute to community-driven programs that promote technology education and digital literacy, particularly among young learners. Through workshops and outreach activities, I help introduce children to technology concepts and basic programming, inspiring their interest in innovation and software development from an early age.

PROJECTS

SALANGI

2026

- We built a map-based platform that helps local businesses increase their visibility while enabling users to discover hidden gems and explore unique places across Pampanga.

SINAMMON

2026

- I developed an open-source tool directory for our local educators. Compiling all the essential tools that will help teachers to give outstanding learning experience for students. Linked also the DepEd Common OERs for easy navigation and accessibility these are all in one platform curated and organized.
